8813A

INDEX.

VOL. IX., MAY, 1892 — APRIL, 1893.

The notes signed by initials in this volume are here indexed under the names of the authors.

A BBE, C., 240, 242, 243, 312, 333, 360, 449, 523, 560, 562.
Adams, J. C., 377.
Air, Mean Temperature at Greenwich, 186.
Air Pressure, Solar Eclipses and, 41.
Anemo-Cinémographe, Comparison of Richard's, 185.
Anemometer Comparisons, 94, 421.
Appleton, W. C., 134.
Applied Meteorology, N. E. Association for, 141.
Are our Winters Becoming Milder? 462.
Artificial Rain, 178, 187, 276, 289, 312, 330, 427, 459.
Association of State Weather Services, 283.
Atmosphere of Planets, Circulation of the, 243.
Atmosphere, Hygiene of the, 376.
Atmospheric Electricity, 333.
Atmospheric Depressions and Sun-Spots, 323.
Atmospheric Pressure, Effect of Low, on the Vital Powers, 148.
Aurora during Moonlight, 428.
Aurora of July 16 at Utica, N. Y., 355.
Automatic Rain Gauges, 341.

BALLOON Ascension, A, 403.

Balloon Ascent at Berlin, 245.
Balloon Voyage, the First Scientific, 58.
Ballou, H. M., 541.
Ballou, S. M., 67, 121, 260, 299.
Barometer, Effect of High Winds on the, 237.

Barometric Pressure, Diurnal Variations of, 525.
Barus, C., 488.
Bathing Conditions, Forecasts of, 291.
Bayard, F. C., 186.
Beals, E. A., 268.
Bertelli, T., 242.
Blythe, W. T., 371.
British Association at Edinburgh, 285, 317.
British Isles, Climate of the, 234.
Buchan, A., 319.

CANADIAN Meteorological Service, 232.

Carpenter, L. G., 368.
Carroll, D. J., 288.
Changes of Level in the Oceans, 240.
Changes of Plane of the Mississippi River, 206.
Chapman, T. S., 235.
Chapter in Meteorological Discovery, A. 377.
Chinook, Rise of Temperature in a, 234.
Chinook Wind, The, 541. [566.
Clayton, H. H., 128, 236, 237, 431, 563.
Climate of Death Valley, Cal., 192, 241.
Climate of Galveston, Texas, 368.
Climate of the British Isles, 234.
Climatology, English, 186.
Cline, I. M., 368, 437.
Cloudiness during Solar Eclipses, 562.
Clouds and Cyclonic Areas, 148.
Clouds, Electricity and, 42.
Clouds and Thunderstorms, 231.
Cloud Photography, 148.
Codman, J. E., 341.

Cold Waves, The Approach of, 563.
 Colors of Cloudy Condensation, The, 488
 Convectional Whirls, 279.
 Cook, E. H., 36.
 Cotton Fibres and Atmospheric Changes, 460.
 Crane, A. B., 63.
 Currier, W. S., 45.
 Curtis, G. E., 276.
 Cyclone, Vortex of a, 236.
 Cyclones, Faye's Theory of, 372.
 Cyclones in the Indian Region, 99.
 Cyclones, Marchi's Theory of, 325.
 Cyclones, Objections to Faye's Theory of, 170, 197.

DALLAS, W. L., 99.

Data on the Solar Eclipse of 1893, 379.
 Davis, W. M., 1, 164, 231, 238, 433, 476, 550.
 Death Valley, Climate of, 192, 241.
 Departures, A Study of, 407.
 Dickson, H. N., 149, 287, 319.
 Dines, W. H., 94, 293, 460.
 Disease, The Winds and, 433.
 Doshier, S. L., 462.
 Dyrenforth, R. G., 187.

ECLIPSE of 1893, Data on the, 379.

Eclipses, Solar, and Air Pressure, 41.
 Editorial Notes, 98, 150, 569.
 Effect of Topography on the Pressure of the Wind, 463.
 Effect of Topography upon Thunderstorms, 221.
 Electricity and Clouds, 42.
 Electrical Storms in California, 239.
 Electrification of the Lower Air, 443.
 Ellis, W., 186.
 English Climatology, 186.
 Epidemics, Origin of Influenza, 35.
 Epidemics, Untenability of an Atmospheric Hypothesis of, 35.
 Errata, 45.
 Ether, The, and its Relation to the Aurora, 268.
 Europe, Meteorological Education in 190.
 Exploration of the Free Air, 469.
 Exposure of Rain Gauges, 95.
 Eye of the Storm, 67, 121.

FACTS about Rain Making, The, 276.

Faye, H., 372.
 Faye's Theory of Cyclones, 372.
 Faye's Theory of Cyclones, Objections to, 170, 197.
 Fergusson, S. P., 421.
 First Aerial Voyage Across the English Channel, 307.
 Fluctuations in the Level of Ground-Water, 565.
 Flood-Stage River Predictions, 47.
 Forecasting at the Signal Office, 215.
 Forecasts by Electric Flash-Light, 557.
 Forecasts, Efforts toward the Improvement of, 128.
 Forecasts, English Weather, 95.
 Forecasts, Improvement of, 251.
 Forecasts in New England, Distribution of, 291.
 Forecasts of Bathing Conditions, 291.
 Forecasts of Temperature from Sunset Colors, 237.
 Forecasts of the Weather, Theory for making Annual, 235.

GALVESTON, Climate of, 368.

Galveston, Mortality at, 431.
 Garriott, E. B., 234, 426.
 Gawthrop, H., 272, 407.
 General Winds of the Atlantic Ocean, The, 476.
 Glaciers, Effect of, on Winds, 147.
 Glassford, W. A., 151.
 Greely, A. W., 194.

HARRIES, H., 35.

Harrington, M. W., 228, 241, 469.
 Harris, T. W., 355.
 Haviland, A., 433.
 Hayden, E., 547.
 Hazen, H. A., 138, 215, 251, 279, 358, 403, 451.
 Hill, E. T., 112.
 Hill, S. A., A Memoir, 112.
 Hot Winds, 426.
 Hot Winds in Texas, 437.
 Hurricane at Mauritius, April 29, 1892, 224, 360.
 Hurricane of December 22, 1892, 547.

Hurricane over the West Indies, Aug., 1891, 94.
Hygiene of the Atmosphere, The, 376.

ICE Columns in Gravelly Soil, 523.

Improvement of Daily Weather Forecasts, 128, 251.
India, Meteorology of, and the Surrounding Sea-Areas, 149.
India, Storms of, 260, 299.
Instinct as a Weather Prophet, 373.
Instruments, Value of Meteorological, in Selecting Health Resorts, 36.
Investigations of the N. E. Met. Soc., 97.
Italian Meteorological Society, Bulletin of the, 242.

KERKHAM, R. E., 283.

LLEVEL of the River Vaal, 186.

Lightning Conductors, 429.
Lightning Discharge at Thornbury, 36.
Lightning Rods, Shall we Erect? 84.
Lightning Strokes, Statistics of, 41.
Local Weather Signs, 374.
Lockwood, S., 376.
Lodge, O. J., 429.
Lovel, J., 460.
Lowe, E. J., 185.
Lyons, C. J., 463, 525.

MANSON, M., 243.

Marchi's Theory of Cyclones, 325
Marvin, C. F., 345.
Mauritius Hurricane, 223, 360.
Mawley, E., 36.
McAdie, A., 84, 426, 428, 429, 443.
McCook, Dr., 322.
Mean Temperature of the Air at Greenwich, 186.
Meldrum, C., 223.
Meteorological Balloon Ascent at Berlin, 245.
Meteorological Discovery, A Chapter in, 377.
Meteorological Education in Europe, 190.

Meteorological Instruments, Value of, in Selecting Health Resorts, 36.
Meteorological Magazine, A New, 43.
Meteorological Observations from Balloons, 558.
Meteorological Society, Italian, 242.
Meteorological Society, New England, 1, 40, 93, 97, 370, 549.
Meteorological Society, Royal, 35, 94, 185, 459, 554.
Meteorological Stations on Mont Blanc, 411.
Meteorological Work at the Colorado Experiment Station, 368.
Meteorological Work for Agricultural Stations, 42.
Meteorology in the Schools, 1.
Meteorology in the United States, 151, 228.
Meteorology, The Needs of, 560.
Meteorology, The Principal Recent Works on, 44.
Mirage in Washington, 239.
Mississippi River, Changes of Plane of the, 206.
Mitchell, A. J., 374.
Monaco, Prince of, 320.
Mont Blanc, Meteorological Stations on, 411.
Mont Blanc Observatory, 290.
Moore, W. C., 170, 197.
Moore, W. L., 349.
Mortality at Galveston, Texas, 431.

NEW England Association for Applied Meteorology, 141, 549.
New England Meteorological Society, 1, 40, 93, 97, 370, 549.
New England, Thunderstorms in, 21, 211.
New England Weather Service, Work of the, 414.
New Physical Atlas, 370.
North Atlantic Hurricane of Dec. 22, 1892, 547.

OBERBECK, A., 325.

Observatory on Mont Blanc, 290.

PPARKER, J. D., 239.

Paper Mills, the Fisheries, and the Weather, 449.

Phenological Observations for 1891, Report on the, 36.

Photography and Meteorology, 144.

Powers, E., 178, 330.

Pressure, Diurnal Variations of Barometric, 525.

Pressure, Effect of Low Atmospheric, on the Vital Powers, 148.

Progress of Meteorology in the United States, 151.

Prohaska, K., 193.

Publications Received, 150, 195, 244, 291, 331, 378, 435, 466, 570.

RRAIN, Artificial, 178, 187, 276, 289, 312, 330, 427, 459.

Rainbow, A Remarkable, 98.

Rain-Clouds on Pike's Peak, 369.

Raindrops, 184.

Rainfall, Influence of Moon on, 558.

Rain Gauges, Automatic, 341.

Rain Gauges, Exposure of, 95.

Rain Making, The Facts about, 276.

Report of the Chief Signal Officer for 1891, 194.

Rotch, A. L., 245, 411, 456.

Royal Meteorological Society, 35, 94, 185, 459, 554.

Russell, R., 35.

Russell, T., 47, 206.

SSAUNDERS, F. E., 460.

Schuster, A., 317.

Scott, R. H., 234.

Sea Breeze at Cohasset, Mass., 134.

Sea Water Temperatures at Atlantic City, N. J., 371.

Sling Psychrometer, The, 451.

Sling Psychrometer, The Aspiration *vs.* the, 456.

Smith, J. Warren, 28, 141, 414.

Snow Storms at Chicago, 63.

Solar Eclipses and Air Pressure, 41.

Solar Eclipse of Jan. 1, 1889, 564.

Solar Eclipse of 1893, Data on the, 379.

Spiders and Weather Changes, 322.

State Weather Services, Association of, 283.

Storms in California, Electrical, 239.

Storms of India, 260, 299.

Storm of March 1 to 4, 1892, 28.

Storm, The Eye of the, 67, 121.

Study of Meteorology in the United States, 228.

Sunshine Recorders, 345.

Sun-Spots and Atmospheric Depressions, 323.

TTARR, R. S., 221.

Temperature Forecasts from Sunset Colors, 237.

Temperature in a Chinook Wind, 234.

Temperature of the Air at Greenwich, 186.

Temperature, Mortality under Different Conditions of, 431.

Temperature Sequences, 138, 358.

Temperatures of Sea Water at Atlantic City, N. J., 371.

Terrestrial Magnetism, 333.

Theory of Cyclones, Faye's, 372.

Theory of Cyclones, Marchi's, 325.

Theory of Cyclones, Objections to Faye's, 170, 197.

Thunderstorm at Langtoft, 460.

Thunderstorm Investigation, 146.

Thunderstorms and Sun Spots, 559.

Thunderstorms, Clouds in, 231.

Thunderstorms, Effect of Topography upon, 221.

Thunderstorms in New England, 21, 211.

Thunderstorms in the Eastern Alps, 193.

Thunderstorms in Wisconsin, 233, 289, 349.

Thunderstorms, Recent Foreign Studies of, 532.

Thunderstorms, Winter, 164, 238.

Tinsley, G. W., 369.

Titles of Recent Publications, 434, 465.

Todd, D. P., 379.

Tripp, W. B., 186.

UUNITED STATES, Meteorology in the, 151, 228.

VORTEX of a Cyclone, 236.

WAMBAUGH, W. J., 373.

Ward, R. De C., 21, 58, 211, 307, 532.

Warm and Cold Seasons, 272.

Watts, F., 94.

Weather Bureau Notes, 143, 288, 426.

Weather Bureau, The, in its Relation to Agriculture, 37.

Weather Forecasts by Electric Flash-Light, 557.

Weather Forecasts, Efforts Toward the Improvement of, 128.

Weather Forecasts, English, 95.

Weather Forecasts in New England, 291.

Weather Forecasts, The Improvement of, 251.

Weather, The Paper Mills, the Fisheries, and the, 449.

Wex, G. R. von, 240.

Whipple, G. M., 185.

Williams, C. T., 36.

Wind, Effect of Topography on the Pressure of the, 463.

Wind Flurries, Avalanches and, 95.

Wind Measurement, 293.

Wind Pressure, Measurement of, 460.

Wind, The Chinook, 541.

Winds and Disease, The, 433.

Winds, Effect of Glaciers on, 147.

Winds, Effect of High, on the Barometer, 237.

Winds, Hot, 426.

Winds, Hot, in Texas, 437.

Winds of the Atlantic Ocean, The General, 476.

Winter Thunderstorms, 164, 238.
